Please leave the decision whether Microsoft illegally snuffed the COMPETITION where it belongs. With the consumer/ we will decide who has the better product. I have been screwed by Microsoft's competition many times. I would not buy anything else. They have made the computer age affordable , away from the monopolies of Apple and IBM.

In my opinion the legal system in this country should be investigated for the damage it has caused the consumer. The attorneys have raped this country and conned many people into believing they are victims. I ask you this question, how many times does your apple lock-up or what does it cost to fix the Apple? I applauded Microsoft and Bill Gates.

Gregg Bair

I HOPE MY VOTE COUNTS. BECAUSE IT WILL CERTAINLY COUNT IN THE NEXT  
POLITICAL  
ELECTION
